ENTOMOLOGIST'S CERTIFICATE OF NURSERY INSPECTION

No. 31.

SEPTEMBER 4, 1899.

This is to certify that the growing Nursery Stock and Premises of W. N. SCARFF, situated at New Carlisle, Clark County, Ohio, has been inspected by a duly accredited Inspector, and that no indications have been found of the presence of San Jose Scale, or other dangerous or injurious insect or plant disease.

This certificate is invalid after June 1, 1900.

F. M. WEBSTER, Entomologist
Of Ohio Agricultural Experiment Station.

A Prosperous Year.

WE have just closed the most prosperous year we have ever had. We thank our many patrons in part for this, yet we cannot help but see and know that it is the result of honest and upright dealings with our customers. We have established our business upon such a basis, and to such an extent has it grown that we find it difficult to grow sufficient stock to keep pace with our increased trade, such being the demand for it. We find that a pleased customer is the best advertisement we can have and we try our best to please them all. We this season have our usual stock of **extra fine plants**. Although the prices have advanced on all nursery stock we have endeavored to sell as near our usual prices as possible, and in some few cases have even reduced prices. In order to do this we are sending out only an abridged price list this Spring and giving our customers the advantage of \$2,000 to \$3,000 we usually spend in advertising. We know **all buyers will appreciate this** as it is **Plants and Trees you pay for, not expensive Catalogues**.

We know we can hold our old customers and we hope every person receiving our list for the first time will give us a trial order, that we may convince you that we grow the very best Plants, Trees, Vines, Etc., in existence. Order early and be sure to be in time for some of our choice stock.

Very respectfully,

W. N. SCARFF,

New Carlisle, Ohio.

STRAWBERRIES.

Our plants are neatly tied in bunches of 25, with all old leaves and runners taken off. Roots straightened and tops trimmed. Plants grown on new ground and are as fine as anyone could wish. We pack our strawberry plants in baskets, and our special lath crates made for our own special use, in which plants carry to perfection. Our plants will please you. Will grow and will make you money. TRY THEM.
